Fourth Prize.... Gray

The HOGDC and GDCC offers Rosettes for Best of Breed to: Best of Opposite Sex, Best of Breed, Best of Winners, Winners Dog, Winners Bitch. Reserve Winners Dog and Reserve Winners Bitch., Select Dog & Bitch, AOM

Awards of Merit Rosettes - at the Judges discretion, Awards of Merit may be offered up to a maximum of ten percent (10%) of the entry in the Best of Breed Class. (As Best of Breed and Best of Opposite Sex to Best of Breed are the highest awards, Awards of Merit will not be given to the dogs winning those awards, but to other worthy dogs entered in the Best of Breed Class)

CLASSIFICATIONS - REGULAR CLASSES

The following classes will be provided for both Dogs and Bitches:

PUPPY, 6 MOS. & UNDER 9 MOS
PUPPY, 9 MOS. & UNDER 12 MOS.
TWELVE TO FIFTEEN MONTH
FIFTEEN TO EIGHTEEN MONTH
AMATEUR OWNER -HANDLER
BRED BY EXHIBITOR
AMERICAN BRED

OPEN BLACK
OPEN BLUE
OPEN BRINDLE
OPEN FAWN
OPEN HARLEQUIN
OPEN MANTLE

WINNERS

COMPETITIVE VETERAN
BEST OF BREED COMPETITION

* **COMPETITIVE VETERANS** must be at least six (6) years old and up, by date of this show. The first place winners from the Veteran Dog/Bitch class shall compete for Best of Breed

* Amateur-Owner-Handler Class (effective as of 1-1-2009) The Amateur Owner Handler Class shall be for dogs that are at least 6 month of age that are not champions. Dogs must be handled in the class by the registered owner of the dog. This class is restricted to exhibitors who have not, at any point in time, been a professional dog handler, AKC approved conformation Judge, or employed as an assistant to a professional handler. Additionally, members of the immediate family or household of a current professional handler are ineligible for this class (as defined in Chapter 11, Section 13)

* **Awards of Merit Rosettes - at the Judges discretion, Awards of Merit may be offered up to a maximum of ten percent (10%) of the entry in the Best of Breed Class. (As Best of Breed and Best of Opposite Sex to Best of Breed are the highest awards, Awards of Merit will not be given to the dogs winning those awards, but to other worthy dogs entered in the Best of Breed Class)**

* **NOHS - All dogs in the BOB competition (including WD & WB) will stay in the ring after the judge makes their placements in BOB competition. The ring steward will ask all professional handlers, household members and current assistants to professional handler to leave the ring and then the judge will then select the Best Owner-Handled (BOH)**

NON REGULAR CLASSES :

STUD DOG CLASS: this class is for Stud dogs and two or more of their get. It is not necessary that the get be under the same ownership as the stud dog. The stud dog must be entered in the Stud Dog class and must be shown in the ring with his get. The class is to be judged only on the merit of the get. **Entry fee for the Stud Dog Class is \$15.00** whether as first entry or additional entry. Get must be entered in a Regular or Non-regular class.

BROOD BITCH: Same as for Stud Dog

Great Dane Breed Standard Working Group

General Appearance

The Great Dane combines, in its regal appearance, dignity, strength and elegance with great size and a powerful, well-formed, smoothly muscled body. It is one of the giant working breeds, but is unique in that its general conformation must be so well balanced that it never appears clumsy, and shall move with a long reach and powerful drive. It is always a unit-the Apollo of dogs. A Great Dane must be spirited, courageous, never timid; always friendly and dependable. This physical and mental combination is the characteristic which gives the Great Dane the majesty possessed by no other breed. It is particularly true of this breed that there is an impression of great masculinity in dogs, as compared to an impression of femininity in bitches. Lack of true Dane breed type, as defined in this standard, is a serious fault.

Size, Proportion, Substance

The male should appear more massive throughout than the bitch, with larger frame and heavier bone. In the ratio between length and height, the Great Dane should be square. In bitches, a somewhat longer body is permissible, providing she is well proportioned to her height. Coarseness or lack of substance are equally undesirable. The male shall not be less than 30 inches at the shoulders, but it is preferable that he be 32 inches or more, providing he is well proportioned to his height. The female shall not be less than 28 inches at the shoulders, but it is preferable that she be 30 inches or more, providing she is well proportioned to her height. Danes under minimum height must be disqualified.

Head

The head shall be rectangular, long, distinguished, expressive, finely chiseled, especially below the eyes. Seen from the side, the Dane's forehead must be sharply set off from the bridge of the nose, (a strongly pronounced stop). The plane of the skull and the plane of the muzzle must be straight and parallel to one another. The skull plane under and to the inner point of the eye must slope without any bony protuberance in a smooth line to a full square jaw with a deep muzzle (fluttering lips are undesirable). The masculinity of the male is very pronounced in structural appearance of the head. The bitch's head is more delicately formed. Seen from the top, the skull should have parallel sides and the bridge of the nose should be as broad as possible. The cheek muscles should not be prominent. The length from the tip of the nose to the center of the stop should be equal to the length from the center of the stop to the rear of the slightly developed occiput. The head should be angular from all sides and should have flat planes with dimensions in proportion to the size of the Dane. Whiskers may be trimmed or left natural. Eyes shall be medium size, deep set, and dark, with a lively intelligent expression. The eyelids are almond-shaped and relatively tight, with well developed brows. Haws and mongolian eyes are serious faults. In harlequins, the eyes should be dark; light colored eyes, eyes of different colors and walleyes are permitted but not desirable. Ears shall be high set, medium in size and of moderate thickness, folded forward close to the cheek. The top line of the folded ear should be level with the skull. If cropped, the ear length is in proportion to the size of the head and the ears are carried uniformly erect. Nose shall be black, except in the blue Dane, where it is a dark blue-black. A black spotted nose is permitted on the harlequin; a pink colored nose is not desirable. A split nose is a disqualification. Teeth shall be strong, well developed, clean and with full dentition. The incisors of the lower jaw touch very lightly the bottoms of the inner surface of the upper incisors (scissors bite). An undershot jaw is a very serious fault. Overshot or wry bites are serious faults. Even bites, misaligned or crowded incisors are minor faults.

Neck, Topline, Body

The neck shall be firm, high set, well arched, long and muscular. From the nape, it should gradually broaden and flow smoothly into the withers. The neck underline should be clean. Withers shall slope smoothly into a short level back with a broad loin. The chest shall be broad, deep and well muscled. The forechest should be well developed without a pronounced sternum. The brisket extends to the elbow, with well sprung ribs. The body underline should be tightly muscled with a well-defined tuck-up.

The croup should be broad and very slightly sloping. The tail should be set high and smoothly into the croup, but not quite level with the back, a continuation of the spine. The tail should be broad at the base, tapering uniformly down to the hock joint. At rest, the tail should fall straight. When excited or running, it may curve slightly, but never above the level of the back. A ring or hooked tail is a serious fault. A docked tail is a disqualification.

Forequarters

The forequarters, viewed from the side, shall be strong and muscular. The shoulder blade must be strong and sloping, forming, as near as possible, a right angle in its articulation with the upper arm. A line from the upper tip of the shoulder to the back of the elbow joint should be perpendicular. The ligaments and muscles holding the shoulder blade to the rib cage must be well developed, firm and securely attached to prevent loose shoulders. The shoulder blade and the upper arm should be the same length. The elbow should be one-half the distance from the withers to the ground. The strong pasterns should slope slightly. The feet should be round and compact with well-arched toes, neither toeing in, toeing out, nor rolling to the inside or outside. The nails should be short, strong and as dark as possible, except that they may be lighter in harlequins. Dewclaws may or may not be removed.

Hindquarters

The hindquarters shall be strong, broad, muscular and well angulated, with well let down hocks. Seen from the rear, the hock joints appear to be perfectly straight, turned neither toward the inside nor toward the outside. The rear feet should be round and compact, with well-arched toes, neither toeing in nor out. The nails should be short, strong and as dark as possible, except they may be lighter in harlequins. Wolf claws are a serious fault.

Coat

The coat shall be short, thick and clean with a smooth glossy appearance.

Color, Markings and Patterns

Brindle—The base color shall be yellow gold and always brindled with strong black cross stripes in a chevron pattern. A black mask is preferred. Black should appear on the eye rims and eyebrows, and may appear on the ears and tail tip. The more intensive the base color and the more distinct and even the brindling, the more preferred will be the color. Too much or too little brindling are equally undesirable. White markings at the chest and toes, black-fronted, dirty colored brindles are not desirable.

Fawn—The color shall be yellow gold with a black mask. Black should appear on the eye rims and eyebrows, and may appear on the ears and tail tip. The deep yellow gold must always be given the preference. White markings at the chest and toes, black-fronted dirty colored fawns are not desirable.

Blue—The color shall be a pure steel blue. White markings at the chest and toes are not desirable.

Black—The color shall be a glossy black. White markings at the chest and toes are not desirable.

Harlequin—Base color shall be pure white with black torn patches irregularly and well distributed over the entire body; a pure white neck is preferred. The black patches should never be large enough to give the appearance of a blanket, nor so small as to give a stippled or dappled effect. Eligible, but less desirable, are a few small gray patches, or a white base with single black hairs showing through, which tend to give a salt and pepper or dirty effect.

Mantle—The color shall be black and white with a solid black blanket extending over the body; black skull with white muzzle; white blaze is optional; whole white collar is preferred; a white chest; white on part or whole of forelegs and hind legs; white tipped black tail. A small white marking in the blanket is acceptable, as is a break in the white collar.

Any variance in color or markings as described above shall be faulted to the extent of the deviation. Any Great Dane which does not fall within the above color classifications must be disqualified.

Gait

The gait denotes strength and power with long, easy strides resulting in no tossing, rolling or bouncing of the topline or body. The backline shall appear level and parallel to the ground. The long reach should strike the ground below the nose while the head is carried forward. The powerful rear drive should be balanced to the reach. As speed increases, there is a natural tendency for the legs to converge toward the centerline of balance beneath the body. There should be no twisting in or out at the elbow or hock joints.

Temperament

The Great Dane must be spirited, courageous, always friendly and dependable, and never timid or aggressive.

Disqualifications

Danes under minimum height.

Split nose. Docked Tail.

Any color other than those described under "Color, Markings and Patterns"
